Dimension is a fast-paced, innovative puzzle game that takes place in three dimensions with 60 colourful spheres. All of the players play at the same time. Everybody tries to position the spheres on their trays to earn as many points as possible. The task cards indicate how the spheres must be placed to earn points: for example, exactly two orange spheres must be on the tray, black and blue must touch each other, and blue must not touch white. Complete these tasks while racing against the timer. You get a point for each sphere you use and a bonus token for using all five colours, but you lose two points for each task card you don't follow correctly. Prove to your opponents that you are the master of multi-dimensional thinking!
