EXIT: The Game is a series of party games for up to four players that offers a unique, unforgettable gaming experience every time. These games allow you to bring the excitement, intensity, and team-spirit of an escape room to your living room.

In each EXIT game, your team starts out locked in an imaginary room, or trapped somewhere. You must solve a series of riddles and puzzles in order to unlock doors and reveal new riddles. Each correct solution brings you to another riddle and eventually to freedom.

The clock is ticking: You must solve all of the puzzles as fast as you can because the faster your team escapes the room and the fewer hints you use along the way, the more points you earn.

Get ready to test your creative problem solving and logical thinking skills, because the rulebook in an EXIT game doesn't reveal all the rules like in other games. After the rulebook gets you started, it's up to your team to discover for itself how the rooms look, what the clues are, how to decipher them, and how to escape. Can you crack the codes and manage to escape?

Each game can be played only one time, because you mark-up, fold, and tear the game materials in order to solve the mystery.
